

I. Key Message/Expectations

This is a course outline based on the Program of Studies for Grade Nine. Students will be asked to listen, view, read, write, represent and speak to meet the objectives outlined in the current Language Arts curriculum. Students will respond critically and personally to the work that they will be exploring this year.

II. Course Overview

Course General Objectives:

There are 5 General Outcomes or general goal statements identifying the knowledge, skills and attitudes which you will develop and demonstrate with increasing confidence throughout the year, which serve as the foundations of ELA. In other words, you will enhance your knowledge of the six strands of language arts in order to:

1. Explore thoughts, ideas, feelings and experiences

- express ideas and develop understanding
- experiment with language and its forms
- express your preferences for specific genres of literature and set goals

2. Understand and respond personally and critically to oral, print, and media texts

- use prior knowledge; develop skills to increase your understanding including visual, textual and structural clues
- experience a wide range of texts
- create texts related to real life and current issues

3. Manage ideas and information

- determine informational needs, use a variety of sources
- organize record, evaluate and share information

4. Enhance the clarity and artistry of your ability to communicate

- appraise own and other's work

-revise, edit and enhance artistry in creating original written works and performance including experimenting with voice, figurative language, and attending to conventions (spelling, grammar, etc.)

-demonstrate attentive/active listening and viewing

5. Respect, support and collaborate with other students

-appreciate diversity of opinion/different points of view as expressed by classmates and authors

-cooperate with others; work in groups and evaluate group processes

-use language to show respect and understanding for different learning styles and personal situations
